## Contact Equipment PRICE LIST

### Terms of Sale

- Cash or personal cheque, payable upon completion and notification of readiness for customer pickup.
- Prices are 'locals' basis for customer pickup and do not include any packaging or preparation for commercial transport
- Not all items are shippable – please ask if not otherwise indicated
- HST extra, as applicable
- Prices, availability and specifications are subject to change without notice
- *While we make an effort to conform to the current and known requirements of the competition organizations, we respect the discretion of the Judge regarding suitability for use in registered competition and make no warranties regarding fitness for a specific purpose.*

Availability – Typically 2 weeks for standard catalogue items.

Agility is a challenge that is supposed to be enjoyed by both dog and handler. A big challenge is hitting contacts, avoiding flyoffs and maintaining control ... whilst keeping up speed and making the course time. To that end, we manufacture sturdy, stable competition equipment that offers predictable performance for many years.

Shaping performance does sometimes require some aids, whether its helping dogs with balance or creating focus on a target zone. We offer a number of time-proven aids to help you find the joy in the challenge of agility.

Other custom and speciality equipment is available. If you have a particular requirement, please contact [Alan](#) for details, pictures and prices to meet your needs.

Please see our **Training Aid pricelist** for tippy and boogie boards, contact trainers, stair steps, etc. Thanks again.

Teeters and Tables Description	Item No.	Price
<b>Teeter-totter (aka See-Saw)</b> <ul style="list-style-type: none"> <li>• sturdy, free-standing, wide-stance welded steel base with bosses to secure plank pivot pin,</li> <li>• base folds for transport and storage,</li> <li>• separate welded steel pivot frame attaches to plank, adjustable for 3 plank speed settings,</li> <li>• stainless steel pivot pin rides in bushings for consistency of operation and corrosion resistance,</li> <li>• removing pivot pin separates plank from base assembly for storage,</li> <li>• standard units have a removable connecting bar for fixed plank height of 24"</li> <li>• metal parts painted with exterior enamel</li> <li>• 2" x 12" kiln-dried lumber plank, 12' long, with flat exterior latex anti-skid paint.</li> </ul>

FCI with special base (35/40cm) and 20cm extension AKC - use Universal CPE - use CKC	APT-S232-F	\$ 209.00
<p><b>Compact Contact Equipment</b></p> <p>Not everyone has the space for full-size contact equipment, yet still have the need to train at home. We do build compact versions of the A-frame, dogwalk and teeter for home use with smaller (under 16") dogs. All are built to duplicate the angles presented by competition equipment, with reduced dimensions and weight, making them easier to set-up and move around. Please contact us for further information and pricing to meet your needs.</p>	TCE-Special	\$ Call
